Version 1.0

EXECUTIVE NOTE

For: Jason, Marketing Manager | Brands: Legends EOR, Funding Bay | Version: 1.0

01 Methodology

Every number in this pack is modelled, not promised. We started with published 2025 and 2026 benchmarks from named sources (listed in section 07). We applied those benchmarks to the stated monthly budget per brand, across a defined channel mix. We then built three scenarios: conservative, base, and aggressive.

Conservative assumes no AI uplift, template-level landing performance, and bottom-decile conversion. **Base** applies industry median performance plus the documented AI scoring lift. **Aggressive** applies top-quartile creative, tuned audiences after month three, and compounded AI lift.

Base is the number we would commit to in a contract. Conservative is the floor we would not drop below. Aggressive is what we target by month four.

02 Assumption Table

FUNDING BAY / Direct response, UK SMEs

Input	Conservative	Base	Aggressive	Source
Monthly ad spend	£8,500	£8,500	£8,500	Client plan
Blended CPL	£110	£85	£65	Sopro B2B CPL 2025
Landing page conversion	4.5%	8.2%	13.8%	Unbounce 2026
Multi-step form completion	55%	68%	78%	Zuko 2024
AI qualification pass rate	48%	60%	72%	Landbase 2026
Funded deal conversion	22%	32%	40%	NACFB 2024
Average loan size	£75,000	£100,000	£150,000	NACFB 2024
Commission rate	1.5%	2.0%	2.5%	Industry standard

LEGENDS EOR / Demand-gen, UK decision makers (revised)

Input	Conservative	Base	Aggressive	Source
Monthly media budget	£7,000	£7,000	£7,000	Client plan
Cost per exec briefing	£320	£240	£175	Martal 2026
Briefings booked / month	22	29	40	Derived
Briefing to discovery deal	55%	68%	78%	SaaS Hero 2026
Discovery to closed contract	18%	25%	32%	McKinsey, Landbase

Input	Conservative	Base	Aggressive	Source
First-year contract value	£22,000	£28,000	£42,000	Wise Monk, Remote People

03 Funding Bay / Channel Attribution

Base scenario. £8,500 ad budget. 100 qualified leads target.

Channel	Budget	% Mix	CPL	Leads	Notes
Google Search	£3,825	45%	£70	55	Intent: "business loan UK", "invoice finance", "bridging loan"
Meta Ads	£2,550	30%	£85	30	SME founders, retargeting, Facebook Groups
LinkedIn Ads	£1,275	15%	£160	8	Higher-ticket deals, FDs and CFOs
YouTube	£850	10%	£120	7	Educational and retargeting, lower intent
Total	£8,500	100%	£85	100	Blended

WHAT 100 LEADS PRODUCES / Base case

- 60 pass basic criteria (12+ months trading, £250k+ turnover, credit 650+).
- 19 funded deals at the 32% NACFB broker benchmark.
- £100,000 average loan, 2% commission.
- **£38,000 month-one commission revenue.**

At £15,500 client price for 100 leads, Jason's ROI is **+145% inside 30 days**. Add year-two repeat business (NACFB reports 48% of broker volume is returning clients) and annualised ROI on Funding Bay sits between **3x and 5x**.

04 Legends EOR / Channel Attribution

After your feedback, Legends is modelled as a booked executive briefing motion, not a lead form motion. The metric is cost per booked call with a decision maker.

Base scenario. £7,000 media budget. 29 executive briefings target.

Channel	Budget	% Mix	Cost / Briefing	Briefings	Notes
LinkedIn Ads	£3,500	50%	£220	16	ABM on UK CFOs, COOs, Founders
Google Search	£2,100	30%	£190	11	"SA operations", "SA team setup", "BPO south africa"
Sponsored newsletters	£700	10%	£140	5	The Hustle UK, Morning Brew UK, Offshore Weekly
YouTube and podcasts	£700	10%	awareness	supports rest	Thought leadership, brand lift, retargeting pool
Total	£7,000	100%	£240	32	Blended

WHAT 32 BRIEFINGS PRODUCES / Base case

- 22 qualified discovery deals (68% pass-through).
- 6 closed contracts (25% of qualified).
- £28,000 average year-one contract value.
- **£168,000 year-one revenue from 32 briefings.**

At a suggested £295 per delivered briefing plus retainer, Jason's year-one ROI on Legends sits at **9x to 13x**, same as the original proposal but through a more realistic motion.

05 Three Scenarios Side By Side

FUNDING BAY / Month one

Metric	Conservative	Base	Aggressive
Leads delivered	77	100	130
Funded deals	8	19	37
Revenue (commission)	£9,000	£38,000	£138,750
ROI vs £15,500 invest	-42%	+145%	+795%

LEGENDS EOR / Year one

Metric	Conservative	Base	Aggressive
Briefings booked	22	29	40
Closed contracts	2	6	12
Year-one revenue	£44,000	£168,000	£504,000
ROI vs annual invest	1.6x	9x	27x

06 Why These Numbers Are Defensible

■ AI qualification lift is documented, not hoped for.

Claude-scored leads convert 25% to 30% better than unscored. Measured across 75% of B2B companies that have adopted AI scoring. (Landbase 2026, Gartner)

■ Multi-step forms are proven on SME finance buyers.

The 86% lift over single page holds for Funding Bay. We do not apply it to Legends, which is why Legends shifts to a briefing motion.

■ The NACFB 32% funded rate is a broker industry average.

Not a top-quartile number. Funding Bay already operates at or above this benchmark. Our AI layer plus better lead scoring should push it higher, not equal it.
